

Thank you for your interest in becoming a Home Care Provider in the Money Follows the Person Demonstration. Oklahoma has chosen the name "Living Choice Project" as their Money Follows the Person program. The Living Choice Project is an exciting opportunity for Oklahoma.

Information regarding the Living Choice program is available on our website at www.ltca.org, under the LCP Community tab. Please take the time to review the program information. If you are interested in pursuing becoming a Living Choice Provider there are a few items we need from you to assure your organization meets the necessary requirements, which include satisfying some of the Waiver 3.5 requirements. These items will be used to authorize the amending of your current Oklahoma Health Care Authority contract to cover Living Choice Project Services.

These items are:

- 1) An updated copy of following pieces of the application: (available upon request)
 - a. Part A – General
 - b. Part B – Administrative
 - c. Part C – Financial
 - d. Part D – Certification Documentation
 - e. Part E – **Not required**, unless significant changes have been made.
- 2) A current copy of your agencies foundational CQI plan. (based on the current *ADvantage* requirements)

Note: There will be changes required to the CQI plan once new processes are finalized, but this will demonstrate the presence of a **current** foundational CQI plan for which to build upon. Enclosed is a copy of Version 1.1 of the Foundation CQI Handbook for the Living Choice Project for your review.

These items will be submitted to the Long Term Care Authority for review. An updated Foundation CQI Plan for Living Choice will be required to be submitted at a future time.

If you have any questions or need assistance please contact Patty Casey (918-879-5241) or Rachel Mix (918-879-5252).

Sincerely,

A handwritten signature in black ink that reads "Patty Casey".
